

Permit to Work

Create re-usable permit templates for all types of onsite work carried out by external contractors and by your maintenance team.

Features

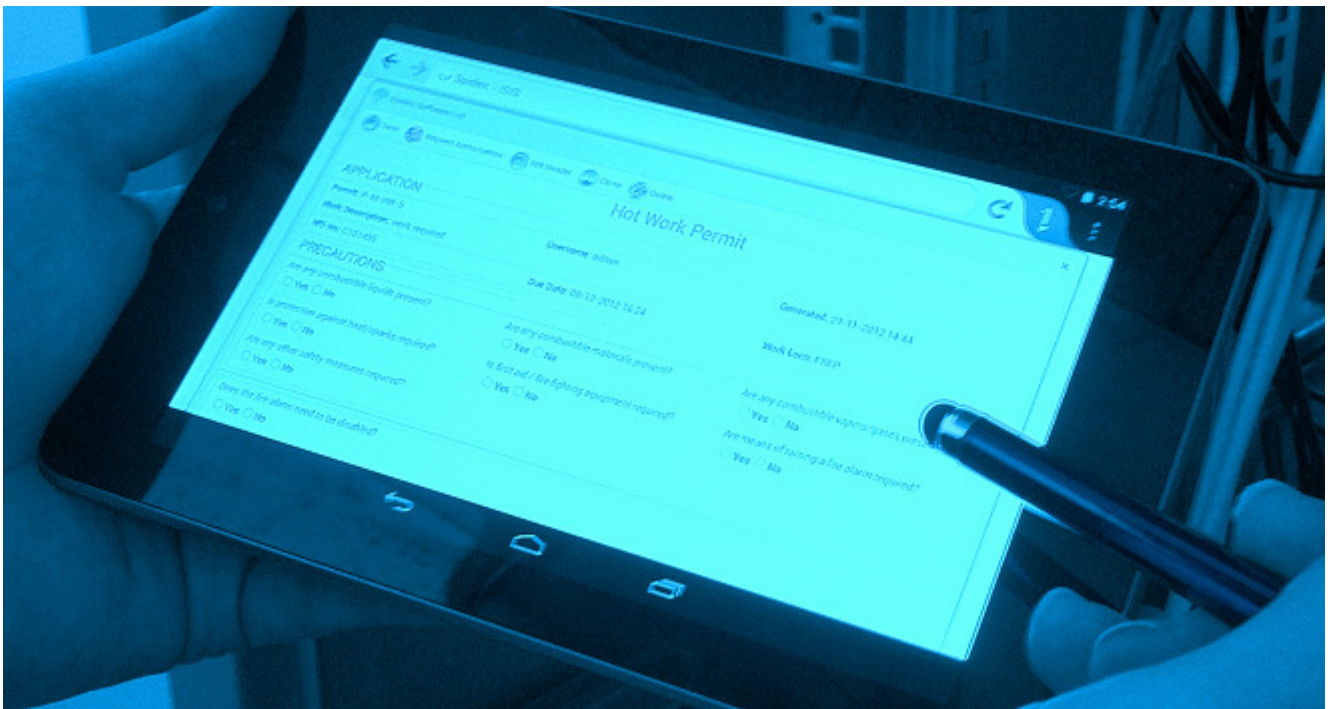

- Creates standard permit templates which can be configured for the task at hand i.e confined spaces, working at height, hot work etc
- Attach documents like method statements, risk assessments and factory layouts.
- PPE requirements can be generated on each permit automatically.
- Acceptance and sign-off of individual permits is carried out electronically with a full audit trail of changes.
- Clear report overviews available to show current, expired and upcoming permits.
- Google Maps plug-in displays the exact location of current permits, together with the status of each one.
- Can be integrated with your CMMS so that permits can be automatically populated with work order information.

Benefits

- Substantial man-hours and money saved by eliminating paper permits
- Demonstrates commitment to on-site worker safety
- Creates HSE culture based on visibility, control and evidence
- Ensures the identities of authorisers and contractors
- Permits stored and easily retrievable from one central library
- Clear audit trail in the event of an investigation
- Can be deployed on standard PCs, PDA or tablet.

Straightforward to use, keeping workers safe

PRECAUTIONS	
<p><i>Are you isolating an electrical source?</i></p> <p><input type="radio"/> Yes <input type="radio"/> No</p>	<p><i>Is fire fighting equipment readily available?</i></p> <p><input type="radio"/> Yes <input type="radio"/> No</p>
<p><i>Is a hard hat required?</i></p> <p><input type="radio"/> Yes <input type="radio"/> No</p>	<p><i>Is eye protection used?</i></p> <p><input type="radio"/> Yes <input type="radio"/> No</p>
<p><i>Are standby persons available?</i></p> <p><input type="radio"/> Yes <input type="radio"/> No</p>	
<p><i>Equipment to be used for the hot work has been checked and found to be in good repair.</i></p> <p><input type="radio"/> Yes <input type="radio"/> No</p>	
<p>Required PPE:</p> <div style="display: flex; justify-content: space-around; align-items: center;"> <div style="text-align: center;">  <p>Ear Protection</p> </div> <div style="text-align: center;">  <p>Foot Protection</p> </div> <div style="text-align: center;">  <p>Eye Protection</p> </div> <div style="text-align: center;">  <p>Full Overalls Resistant to Chemicals</p> </div> </div>	

“With EPRAIS, we were able to replace a group of older legacy systems with a unified health & safety solution rolled out across six operational sites.”

**Steve Marshall, Group Engineering Director
Sheffield Forgemasters**
